

...Scouting tents

Traditional British quality...

...Quality British made tents for scouting, guiding and youth groups

Scouting Tents...

With over 100 years of producing scouting tents, BCT Outdoors has built a world wide reputation for British quality with thousands of Scout, Guide and Youth groups...

Ever since Lord Baden Powell created the Scout movement back in 1908, BCT has been producing tents along with an unrivalled customer service for excellence.

The company's success story relies heavily on the importance given to research and development and to both listening and acting on the demands of the customer.

This philosophy backed by traditional skills has enabled the company to build a large customer base both at home and abroad. Everything in our collection is manufactured at our factory in Bradford, Yorkshire. We do not import any tents.

As you will discover throughout, our attention to detail, both in the selection of raw material and in every aspect of production, we still follow the stringent guidelines which Clifford Fawcett (grandfather of the present chairman) insisted upon over 100 years ago.

BCT Guarantee...

In the unlikely event that any part should fail under normal use within the guarantee period, please contact us and at our discretion we will either repair or offer a replacement.

As every product is manufactured by ourselves, all replacement parts are readily available.

Environmentalists Note...

We all share a responsibility to protect the environment and we try to ensure that the production dyeing techniques used in the manufacture of our products adhere to this criteria.

*The Patrol tent (RT14) size is 4.27 x 2.44m will accommodate 7 persons in comfort.

Features & Details

Material

- Manufactured using canvas made to our own specifications 393gsm
- Treated to British Standard 3408 for both rot and water repellency

Features

- 8mm guy ropes and side guys fitted with hardwood runners
- Hardwood dollies fitted to main guys and buttons to side guys
- Wooden poles with aluminium ferrules and plated steel spikes
- Double sewn seams for added strength and water repellency
- Reinforced saddle fitted to ridge to prevent friction damage
- Corners reinforced with heavy duty PVC coated polyester
- Mesh ventilation on each side complete with rain cowls
- Dutch laced doorways with double rain flaps and brass eyelets
- PVC coated mudwall

Extras

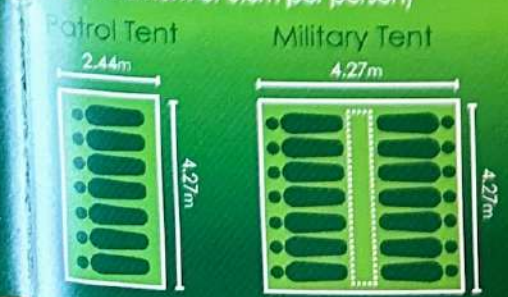

- Fly sheets made to the same exacting standards, complete with pegs, guys and separators
- Our groundsheet are made from heavy duty PVC coated polyester tarpaulin grade fabric, welded seams and hemmed with brass eyelets

Contents

- Cover
- Main Guys
- Valise
- Pole Set
- Wood Pegs
- Mallet

Dimensions

*Comparison of the Patrol tent (RT14) with the Military tent (MT14) (Size guide based on a minimum of 0.6m per person)

Manufactured from a traditional heavy duty 393gsm cotton duck treated to withstand water penetration and offer a good resistance to rot and mildew. All seams are double sewn for strength and to prevent the impasse of water. All points of strain are heavily reinforced and a friction saddle is fitted to prevent chaffing from the ridge pole.

The dutch laced doors back and front have weather seals to keep out both wind and rain. All eyelets are heavy duty brass grommets. Tie backs of heavy cotton webbing are provided for the doors and to enable the walls to be rolled up for airing. All side guys are fitted with wood runners for strength. The main guys have solid wooden dollies and solid wood runners. Each tent comes complete with wood pegs and wooden mallet, all packed in a heavy duty breathable valise.

Need to sleep more people?...

the military ridge tent has the space

Code: MT 13	393gsm	3.96 x 3.66 x 2.13	24kg			YES	MTF13	MTGS13

*The Military tent (MT14) size is 4.27 x 4.27m will accommodate 14 persons in comfort, double that of the Patrol tents RT14 model.

Mess Tent...

Mess Tents are ideal for group activities such as mealtimes, meetings and accommodation. BCT standard mess tents are made to the same exacting standards as all our products.

A high quality standard mess tent...

A series of 3 mess tents which are a fixed size (not extendable), which are easy to erect, very stable and long lasting. Mess tents have become very popular with outdoor activity groups. Our mess tents are designed taking into account the many different individual needs of youth groups worldwide. Continuous liaison with our customers in both Guide and Scout groups has enabled us to create a mess tent range of extremely high quality and versatility. All of our mess tents are fire retardant to BS7837.

Features & Details

Material

- 393gsm 'A' grade cotton duck for both roof and walls
- The fabric is fire retardant to BS7837 (1996)

- Dutch laced doorways at the front and back
- Pegging points on tent and mudwall
- Storm guy points at corners
- Double sewn seams
- Reinforced saddles to prevent wear
- Ground rails included
- Can be erected on hard & soft site
- Frame can be pegged down through feet
- Canvas fastened directly to frame
- Extensions can be added

Contents

Canvas cover in two parts

- Frame
- Storm guys
- Pegs steel & wood
- Mallet
- Valise
- Angle bag
- Frame bag
- Peg bag

The best mess tent available...

Supplied with ground rails for use on hard or soft standing. Centre poles are provided, however; as the frame is heavier duty than the Standard Mess Tent these can be removed so as not to intrude in the main tent area. The Mess Tent Premium has a front and back section which dutch laces together. Multiple extensions can be added in 1.5m or 3m sections. Made from 393gsm fire retardant and water repellent cotton, available in white or green. Dutch laced doors to the back and front with weather protection. Mesh windows in the sides with roll down flaps and heavy duty PVC mud wall.

Bunk House...

www.bctoutdoors.com

The Bunk House Tent is an innovative approach to group camping accommodation. It is a progression from our successful Base Camp tent.

Heavy duty tent with off ground sleeping...

Additional Features

- Occupants sleep off the floor
- Sleep twice as many people in the same space
- Easier to keep the tent tidy
- Does not obstruct main living accommodation down the centre of the tent
- Keep sleeping bags dry and aired
- Beds are never damp as PVC coated polyester base is breathable
- Hygienic wipe clean material
- Space at the side of each bed for kit storage
- Shoe and boot space under the bottom bunk out of the way
- Pack flat for easy storage and transportation
- Bed frames can be used for drying clothes inside the tent
- Use beds to sit on during the day
- Bunks can be easily removed to provide fully open space if required
- Larger bed than average camp bed
- No extra mattress needed
- Safe and stable

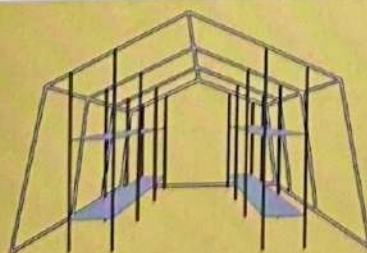

Bunk House Kits

Bunk House Kits (BHK) consisting of two bunks are available to upgrade existing Base Camp tents.

The bunk size is 2.0 x 0.75m. The bottom bunk is 0.40m off the ground, and the second bunk is 0.80m above the bottom bunk.

The bunks pack down for storage and transportation to 2.02 x 0.76 x 0.20m and weigh 21kgs per pair of bunks.

The bunks connect to the frame of the tent, giving both the tent and bunks exceptional stability. The bunk frames are made from the same material as the tent frame.

BUNK HOUSE	MATERIAL	SIZE m	WEIGHT	FRAME	NO OF BEDS	ROT/H2O	FIRE RETARD
BH1	393gsm	5.0 x 4.0	188kg	32mm Heavy Duty Zinc Electroplated Steel	8	Yes	Yes
BHE	'A' Grade Cotton Fire, Water & Rot resistant.	5.0 x 2.0	120kg		4	Yes	Yes
BH2		5.0 x 6.0	305kg		12	Yes	Yes

Troop Tent...

Developed by BCT Outdoors as a modern, practical alternative to the Ridge Tent, the Troop Tent is easy to erect even by one person and has immense stability.

Features & Details

Material

- 393gsm 'A' grade cotton duck for both roof and walls
- Available both fire retardant to BS7837 (1996) or none fire retardant to BS3408
- Rot water and mildew repellent
- Zinc plated 28mm poles
- Heavy duty PVC sewn in groundsheet

Features

- Large mesh windows 2 front and 2 back with heavy duty zip closing
- Entrance door front and rear with heavy duty zips
- Front and rear canopy to keep doorways dry
- Storm guys on canopy
- Side guys with wood runners
- Brailing points all round
- Pockets fitted on inside for personal items
- 4.5msq of stand-up headroom over 1.8m
- Incredible ground size of 13msq.

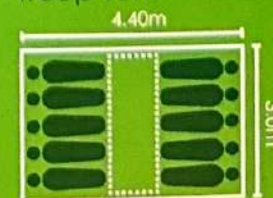

A brilliant alternative to the Patrol Tent...

Manufactured from the same high quality materials as all our heavy tentage it has become a market leader. It will provide any group with top quality tentage at an economical price for many years to come. Troop Tents are available with or without a sewn in groundsheet.

Contents

- Canvas
- Pole set

Troop Tent XL

Jamboree...

Mess tents have been around for many years with very little or no change in design. BCT has given the Jamboree a complete makeover to establish the Jamboree as probably the worlds most versatile Mess tent.

A high quality Mess tent for the group on a budget...

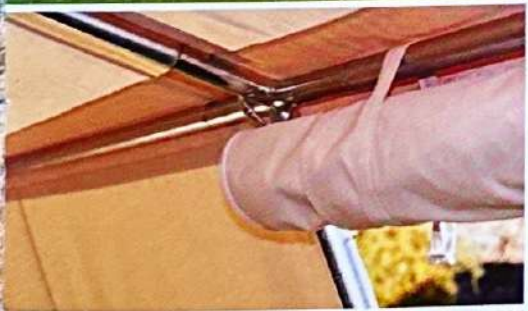

The sizes are ideal for most groups, they are easy to put up, fit nicely into a car and have good accommodation. An all round versatile tent. We have now made it more versatile with a removable front and back panel, removable centre legs, zip open sides. The overall dimensions remain unchanged and it is still available in 3 different sizes. 100% cotton 393gms for both roof and walls. Fire retardant, water proofed and mildew proofed. The ideal tent for the group, ideal for accommodation, village fetes, church events a good all round fund raiser.

JAMBOREE MESS TENT	CODE	MATERIAL	DIMENSIONS m	WEIGHT	CENTRE HEIGHT m	WALL HEIGHT m	POLES	COLOUR	FIRE RETARD
STANDARD	JAMS	393gsm COTTON	4.4 x 4.4	44kg	2.22	1.82	STEEL	NATURAL	YES
MEDIUM	JAMM		4.4 x 6.0	60kg	2.22	1.82			
LARGE	JAML		4.4 x 7.7	76kg	2.22	1.82			

www.bctoutdoors.com

Features & Details

All 3 sizes have both removable and re locatable back and front panel. The panels will split up the centre with the separable zip. The panels simply clip to the frame.

The zip in the centre of the front and back panel allows the panel to be slit into 2 sections so they can be relocated in a staggered formation if required.

The standard and medium size Jamboree Mess Tent have a ventilation window in each side with a roll down weather cover. The large size Jamboree Mess Tent has 2 windows in either side.

The standard and medium sizes have 2 zips in each side to enable the sides to be rolled up, these are then held up in place by tapes and rings. The large size has 3 zips in either side to form a double or single opening. The side leg in the centre of the opening can be removed to form a totally unobstructed opening.

All Jamboree Mess Tents are supplied with centre legs, as these tents have a more rigid frame these legs can be removed or replaced very simply. Should you need a completely unobstructed open plan structure simply remove the push fit leg. The leg hanger is then held up to the roof rafter pole by the rubber and hook provided. Should the weather turn inclement simply put the poles back in.

All the Jamboree Mess Tents are manufactured to our usual high standard with strong pegging points and guy points.

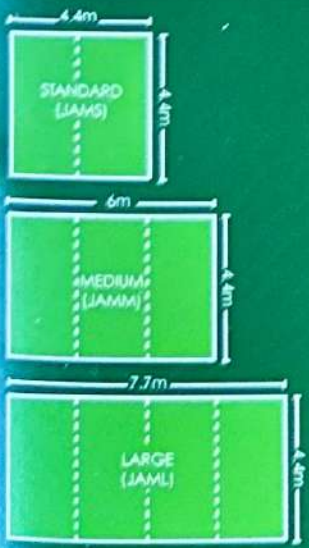

The Jamboree Mess Tent is manufactured from our high specification 100% cotton canvas for both roof and walls. The canvas is 393gsm, the canvas is natural in colour, fire retardent to BS7837(1996). Rot and mildew proofed and water proofed. All the seams are double stitched and the tents have a double reinforcement where the roof rafters are located.

The Jamboree Mess Tent frame is manufactured from 28mm steel tube for both straight poles and angles. The frame is plated to maintain a rust free finish. The roof poles, legs and angles are packed in 3 separate strong, breathable bags they can each easily be carried by one person.

The Jamboree Mess Tent comes complete with main guy ropes, wooden pegs and a wooden mallet.

The tent outer cover is packed in a strong, breathable valise.

When totally closed the Jamboree Mess Tent will keep out the worst of British weather.

As our other Mess Tents the Jamboree Mess Tent is available in 3 sizes.

Giant Pearl...

The Giant Pearl is the stalwart of the group camping scene. Introduced by Relum some 30 years ago, it has enjoyed massive sales throughout the UK and Europe.

An original classic gem amongst tents...

Features & Details

Material

- 300gsm 'A' grade cotton
- PVC coated medium weight groundsheet
- Zinc plated steel pole set

Features

- Entrance door with heavy duty 'T' zip
- Mosquito net windows with a roll down cover
- Cottage end canopy over door area
- Personal item pockets to side walls
- Large bell end at rear for kit storage
- Sewn in strong groundsheet keeping the bugs out
- Separate fly sheet as an optional extra

Contents

- Canvas
- Pole set
- Steel pegs
- Guy ropes with alloy runners
- Valise - pole bag - peg bag

BCT bought Relum in the late 1990's. Originally the Giant Pearl was manufactured in the Czech Republic by a company which is now defunct, so BCT started to manufacture them here in the UK from the original Czech patterns. Today's Giant Pearls have an upgraded steel pole set, a much heavier and stronger groundsheet and upgraded guy ropes.

GIANT PEARL	CODE	MATERIAL	SIZE m	WEIGHT	POLES	HEIGHT m	COLOUR	Rot/H2O
GIANT PEARL	GP1	300gsm Cotton	4.11 x 2.0	9kg	26mm Uprights & ridge	1.83	Blue	Yes
FLYSHEET	GPFS	300gsm Cotton	4.11 x 2.0	11.5kg	-	1.90	Blue	Yes

Pioneer...

www.bctoutdoors.com

Based on a Dutch Scout design which is very popular in the Netherlands. We already manufacture this tent for a large Dutch distributor.

Based on a Dutch Scout tent design...

Features & Details

Benefitting from a sewn in groundsheet the tent can sleep 6 to 8 people comfortably.

It has pockets in the side wall for the safe keeping of small items.

A rear door and ventilator in the rear of the tent allows easy access from either end of the Pioneer.

Manufactured to our usual high standard including double sewn seams and heavy reinforcing at points of strain.

Herringbone webbing around the perimeter and brass eyelets, good strong guy ropes with hardwood runners and wooden pegs.

Good 28mm tubular steel frame, uprights and ridge go together into a solid welded bracket.

The cover has a 150mm wear band down the ridge section – reinforced with PVC at the major points of strain.

Two good ventilation windows in the front door with zip down covers and rollback tapes with 'D' rings.

Heavy duty spiral zips used throughout.

The permanent front canopy makes a good shelter for removing muddy boots or drying out wet clothes, or maybe a place to sit and chill out in the fresh air.

The tent could be described as an upmarket Giant Pearl! The Pioneer has many unique features that are not included in any of our other models. Being manufactured for the Dutch market the tent boasts a headroom height of 2.5 metres, making it feel very light and airy.

PIONEER	MATERIAL	HEIGHT _m	WIDTH _m	LENGTH _m	COLOUR	RoI/H2O	SEWN IN GROUND SHEET
Pioneer	Cotton	2.5	3.7 ext/2.8 Int	5.5 ext/4.0 Int	Natural	YES	YES

Task Force...

Task Force is a small range of very durable ridge tents. All made to withstand the weather that any British season can throw at you and can be used for that quick overnight stop or a relaxing week by the lake.

Probably the most rigid tent on the market today...

We manufacture both tents in Ten Cate fabrics, cotton and 'All season'. And the colour options - it's like Henry Ford said 'It's available in green, green or green!' The cotton fabric is top quality, rot and water proofed, breathable and very comfortable. The 'all season' is ideally suited to every season and will not rot if packed up wet for any period of time. Available as Standard or Supreme in two sizes, three person and four person.

...The choice is yours.

Task Force 3

Task Force 4

...Task Force Extension

Our unique 'zip'on extension gives that extra living space for the longer camp. The canopy can be opened at either side and can be used with the bell end on or off. Complete with all poles and canopy poles.

Materials

(Task Force Extension)

All materials used on the "Task Force Extension" fly sheet are identical to materials of the tent. *N.B If you buy a Task Force Standard or Supreme we recommend you purchase the matching extension.

(Task Force Supreme Extension)

The Task Force Supreme fly sheet is our own specification 'All season' material which is 'calendered' to give exceptional weather protection. All other tent items are the same as the standard.

Bell Tent...

Bell Tents have been the mainstay of Scout camping since the early days of Baden Powell's original camp on Brownsea Island in 1907 and have made a remarkable resurgence in recent years.

A traditional British made cotton canvas bell tent...

In recent years the new camping phenomenon 'Glamping' has caused a massive surge in demand for this type of tent. To meet this demand we have made various alterations to the 'Traditional Bell Tent' giving it a porchway and a higher entrance door. Other added refinements include a zipped door, a frame support around the door and a zipped in groundsheet to keep the bugs out.

BELL TENT	MATERIAL	SIZE m	WEIGHT	POLES	COLOURS	Rot/H2O/FR

...Bell Tent Canopy

By popular demand BCT Outdoors have produced a universal canopy. Not only does the canopy fit both BCT 4m and 5m Bell Tents it will also fit bell tents from other suppliers which are not manufactured in the UK.

Details

The BCT Bell Tent Canopy is manufactured here in Bradford, Yorkshire from 100% cotton fabric. 393 gsm natural cotton, mildew and rot proofed. Fire retardant to BS7837 (1996) optional and water repellent.

The canopy is designed to enhance the comfort of your Bell Tent allowing covered standing space outside the tent and is suitable for dining under or for just lounging by the wood burner.

The canopy opens up at either side to give an even larger sitting or standing area.

Complete with all necessary components and supplied in an easy storage bag.

Size

Height in centre 1.8m
Front to back 2.6m
Ridge to ground 2.6m

Contents

- 3 x 1.8m steel upright poles
- 3 x Double guy

Bell Tent Tradition...

Bell Tent Tradition must be the original of all tents. Based on the same design as it was hundreds of years ago. BCT made the replica camp on Brownsea Island from original photographs taken at the time of Lord Baden Powells 1st camp.

The original of all tents, a true classic...

Features & Details

Materials

- 393gsm 100% 'A' grade cotton
- Fire retardant BS7837
- Wood centre pole
- Dutch laced door
- Wooden pegs
- Heavy duty PVC mudwall
- Guy ropes with wood runners

Features

- Heavy duty throughout
- 3 Ventilators in roof with cowls
- 3 Ventilators in wall with roll down storm flaps
- Heavy duty PVC mudwall all round
- Dutch laced doorway with tiebacks and brass eyelets
- Double eyelet and rope brailing points
- Eyelet guy rope attachments

The traditional Bell Tent is possibly the original Scout and Guide tent design used in many of the early jamborees and by the army in the 19th century. The bell tent is still popular with Boys Brigades throughout the UK. BCT Outdoors manufacture their own Bell Tents from our factory in Bradford to ensure a solid, high quality build with every component "heavy duty" creating a Bell Tent designed for durability and long life.

DTT	Grade cotton duck	14kg	1.55 x 1.22 x 1.8	plated poles	Yes	No

Marquees...

www.bctoutdoors.com

The Traditional Marquee which was the first 'tent' that BCT produced over 100 years ago is still produced in very much the same way as it was in those early days.

Marquees that stand the test of time...

Features & Details

Material

- 509gsm 'A' grade cotton duck for both roof and walls.
- The canvas is fire retardant to BS7837 (1996)
- Rot water and mildew repellent
- PVC marquees are manufactured from 1000 dec PVC coated polyester which is fire retardant to European regulation M2 and ultra violet stabilised to protect against the rays of the sun and prevent cracking at low temperatures. A lacquer finish facilitates easy cleaning.

Features

- All marquees come complete with roof canvas, walling, main pole(s) (split into two halves and sleeved together for your convenience), 1.8m wooden side poles, guy ropes with hardwood runners, hardwood pegs and mallet.
- The walls are separate and can be hooked on and taken off as required
- A marquee without walls can be used as a roof shelter
- All canvas, poles and pegs are packed in easy to carry valises

Construction

- Smaller marquees up to and including Q15 have a one piece roof and a central pole. Sections of walling allow the doorway to be placed in any position.
- Marquee walls are 1.8m high allowing you to stand upright over the total ground area.

Extras

- Ridge poles also available

Traditional Marquees are made in sections so they are lighter to carry and easier to erect. Sections of walling allow the doorway to be placed in any position. A marquee can be used as a roof shelter only. The walls are separate and can be hooked on and off as required. Erecting marquees is quite simple providing the instructions are followed; however, because of the weight of canvas, adult supervision is advised.

MARQUEES	MATERIAL	WEIGHT	SIZE mm	COLOUR	ROT/H2O/FR
Q12	509gsm 'A' Grade Cotton Duck	85kg	3.66 x 3.66 x 3.38 x 1.8 wall	White	Yes
Q15		105kg	4.57 x 4.57 x 3.53 x 1.8 wall	White	Yes
Q22		124kg	6.1 x 6.1 x 3.66 x 1.8 wall	White	Yes
Q32		205kg	9.23 x 6.1 x 3.66 x 1.8 wall	White	Yes
Q42		250kg	12.3 x 6.1 x 3.66 x 1.8 wall	White	Yes
Q62		310kg	18.46 x 6.1 x 3.66 x 1.8 wall	White	Yes

Fire Shelter...

Our Traditional Fire Shelter was designed with the help of our customers, some old pictures from a very old Scout manual and combines modern fabrics with production techniques

Features & Details

Material

- 393gsm 'A' grade cotton duck
- Fire retardant to BS7837 (1996)
- Rot and water resistant
- Mildew repellent

Features

- Extremely versatile.
- Can be used for cooking, dining, washing up and general activities
- The ends can be angled down to the ground to provide shelter from the wind
- Tubular steel
- Comes complete with all necessary guy ropes, pegs, etc
- Packed in 2 valises, keeping poles and canvas separate

Contents

- Cover
- Frame
- Guys
- Wooden Pegs
- Bag

An extremely well designed utility tent...

It gives great headroom for both cooking and preparation. With having the open sides it gives great ventilation and an easy escape route should the chef become over enthusiastic!

Fire retardant, water repellent and easily erected.

FIRE SHELTER	MATERIAL	WEIGHT	SIZE m	FRAME	COLOUR	ROT/H2O	FIRE RETARD

www.bctoutdoors.com

Fire Shelter XL...

A deeper version of the standard Fire Shelter with the addition of a detachable panel giving extra shelter from the wind.

The perfect **Extra Large** shelter for cooking & dining...

Village Tent...

The Village Tent has been created for our adventure holiday and large campsite clients. The tent can be made in different colours to suit the organisation or group.

Features & Details

Material

- 480gsm PVC coated polyester.
- Fire retardant to M2 and BS 7837.
- Lacquer finish for easy care and good looks.
- Ultra violet stabilised to prevent the material stretching or fading in hot weather and cracking in freezing conditions.
- Anti fungicide treated to prevent fungus spores forming if the tent is left folded when wet for any length of time

Features:

- Large mesh window
- Large door with heavy duty zips
- Brailing points all round

Contents:

- PVC Cover
- Pole set
- Pegs
- Valise

A versatile tent suitable for many uses...

The tents are made from 480gsm PVC coated polyester and are fire retardant to M2 and BS 7837 standards. These tents are proven to be a hard wearing and substantial tent which can accommodate 4 in bunks or 2 in single beds. The village tent would also make an ideal store tent, first aid tent or shelter for group activities.

outdoors

...we've got it covered

After sales service and maintenance...

BCT can carry out maintenance to existing tents including repairs (zips, lacing & mud walling), as well as re-proofing.

As part of our service we can also arrange for the collection of your tent so that you don't have to worry about organizing the carriage.

Please telephone us on **01274 728469** to enquire about maintenance or replacement parts for tents produced by us. Full details of all our tent products as well as marquees, glamping and softplay areas are available on our group website: www.bctoutdoors.com

We reserve the right to change sizes and specification without prior notice.

All sizes in metres and weights in kg (unless otherwise stated) are approximate and intended as a guide only.
